Mr. Gary Phillips
Dover Chemical Corporation
3676 Davis Road N.W.
Dover, Ohio 44622

Dear Mr. Phillips:

I received your response to my February 1, 2010, Notice of Violation letter on March 30, 2010. The documentation that you submitted included copies of photographs taken during the secondary containment upgrade, training sign-up sheet, and outline of the contingency plan training.

My review of this documentation reveals that Dover Chemical Corporation has adequately demonstrated abatement of all violations discovered during the June 9, 2009 and June 10, 2009 compliance inspection.

Comment

The outline of the contingency plan training that was submitted discusses reportable quantities. It should be noted in future annual refresher contingency plan trainings, that provisions of the contingency plan must be implemented immediately whenever there is a spill of hazardous waste which could threaten human health or the environment regardless of the reporting quantities.

If you have any questions regarding this letter, please call me at (740) 380-5256.

Sincerely,

Melody Stewart
District Representative
Division of Hazardous Waste Management

MS/mlm

Notice:

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your company from having to comply with all appropriate regulations.
