McArthur, Ohio 45651

Dear Ms. Squires:

Thank you for your February 9 and February 15, 2011 responses to Ohio EPA's January 11, 2011 Notice of Violation letter. The documentation you submitted included two weeks of completed inspection logs for the less-than-90-day hazardous waste accumulation magazine, and photographs showing that spent universal waste lamps have been containerized within the locked wooden cabinet located in Maintenance Shop #3. The photographs also show that the containers of universal waste lamps are kept closed and have been properly labeled and dated.

The documentation you submitted demonstrates that Austin Powder Company - Red Diamond Plant has now abated all violations discovered during Ohio EPA's December 29, 2010 hazardous waste inspection.

If you have any questions or require assistance, please feel free to call me at 740-380-5237.

Sincerely,

Vicky D. German
