Troy, Ohio 45373

RE: Notice of Violation
Worldwide Junk Dealer and Recycling Center
Property located at 633 S Union Road, Miami County, Ohio

Dear Mr. Hoagland:

On April 28, 2009, Pat Willoughby and I representing the Ohio Environmental Protection Agency (Ohio EPA), Southwest District Office (SWDO), Division of Solid and Infectious Waste Management (DSIWM), responded to a complaint regarding your property located at 633 S Union Road (Identified by Miami County Auditors as Parcel No.D08-090920), Troy, Miami County, Ohio.

The property is the site of open dumping of solid wastes and improper storage of scrap tires. The purpose of this comprehensive inspection was to determine compliance with Ohio's Solid Waste Laws, Ohio Revised Code (ORC) 3734 and Ohio Administrative Code (OAC) 3734.

During the inspection on April 28, 2009, the following was observed:

1. Miscellaneous solid waste including but not limited to wood and plastic was comingled with soil on the back of the property resulting in several large piles of debris that are classified as open dumping (see Figures 1 & 2)

Open Dumping is defined under Ohio Revised Code (ORC) Section 3734.01(I), which states in part:

“Open dumping” means the depositing of solid wastes into a body of or stream of water or onto the surface of the ground at a site that is not licensed as a solid waste facility under section 3734.05 of the Revised Code.

Figure 1: open dumping piles in the background

Figure 2: close up of one of the open dump pile

All solid wastes must be disposed at a licensed solid waste facility. Disposal of solid waste in an unlicensed solid waste facility constitutes open dumping and places you in violation of the following Solid Waste Laws and Regulations:

The open dumping of solid wastes such as those observed on this property is a violation of Ohio Revised Code (ORC) Section 3734.03, which states in part:

"No person shall dispose of solid wastes...by open burning or open dumping..."

Open Dumping is also a violation of OAC Rule 3745-27-05(C), which states in part:

"No person shall conduct, permit, or allow open dumping. In the event that open dumping is occurring or has occurred at a property, the person(s) responsible for the open dumping, the owner of the property, or the person(s) who allow or allowed open dumping to occur, shall promptly remove and dispose or otherwise manage the solid waste in accordance with Chapter 3734 of the Revised Code, and shall submit verification that the solid waste has been properly managed".

Operating and maintaining a solid waste facility without a license is a violation of ORC Section 3745.05(A), which states in part:

"Except as provided in divisions (A)(4), (8), and (9) of this section, no person shall operate or maintain a solid waste facility without a license issued under this division by the board of health of the health district in which the facility is located or by the director of environmental protection when the health district in which the facility is located is not on the approved list under section 3734.08 of the Revised Code".

This is also a violation of OAC Rule 3745-37-01(A), which states in part:

"No person shall conduct municipal solid waste landfill, industrial solid waste landfill, residual solid waste landfill, compost facility, transfer facility, infectious waste treatment facility, or solid waste incineration facility operations without possessing a separate, valid license for each such operation, as required by Chapter 3734. of the Revised Code and the Administrative Code rules adopted thereunder. Each license shall be obtained from the board of health in the health district in which the facility is located, or by the director, if the director has assumed the licensing function for that health district".

The above violations of the ORC, and the OAC, constitute a violation of ORC 3734.11(A), which states:

"No person shall violate any section of this chapter, any rule adopted under it, or any order issued under section 3734.13 of the Revised Code".

2. During the inspection, scrap tires were observed both scattered on the property and stored in an old salt barn. Water was observed in several scrap tires located in the old salt barn (See figures 3-5).

Figure 3 & 4: Scrap tires stored in old salt barn

Figure 5: Scrap tire pile on ground by open dump piles

Scrap tires must be properly stored and managed in accordance with Ohio's Scrap Tire regulations pursuant to OAC Rule 3745-27-60.

The improper storage and handling of scrap tires on the property is a violation of **OAC Rule 3745-27-60(C)**, which states in part:

"Anyone storing scrap tires shall maintain mosquito control as follows:

(1) One or more of the following shall be done to control mosquitoes:

(a) Remove liquids from scrap tires within twenty-four hours of accepting the scrap tires.

(b) Store scrap tires such that water does not accumulate in scrap tires or containers. Tires shall be kept free of water at all times.

(c) Within twenty-four hours of accepting scrap tires containing liquid, arrange for the application of a pesticide or larvicide, which is registered for use as mosquito control by the Ohio department of agriculture.

(2) Maintain mosquito control by keeping all tires dry or by continuing applications of a pesticide or larvicide to all scrap tires stored outdoors at no greater than thirty-day intervals or as recommended by the manufacturer or formulator.

(3) Maintain mosquito control records at the premises indicating the name, type, amount used per tire, and EPA registration number of the pesticide or larvicide, the date and time of the application, and the name of the person who applied the pesticide or larvicide. The property owner or the owner or operator of the premises shall make the mosquito control records available for inspection by the director or the health commissioner during normal operating hours. The owner or operator shall retain copies of mosquito control records for a minimum period of three years."

You stated during the inspection that most of the tires were sellable products for your recycling business. Please be aware that all used tires are a scrap tire because the original owner has discarded it and no longer wants the tire. As we discussed, the tires you wish to keep for resale must be inventoried in some manner to show their value. As a tire retailer you are allowed to store only 1000 tires outside. As was discussed, you wish to move the tires currently on the property into the structure located at the property. All tires stored on the property must comply with OAC Rule 3745-27-60 for both inside and outside storage. I am enclosing this Rule for your review.

Improper storage of scrap tires poses several potential problems for the local residents, environment, and the emergency crews in the area. Scrap tires provide an optimal breeding ground for mosquitoes. Mosquitoes identified at tire piles in Ohio can carry St. Louis Encephalitis, La Crosse Encephalitis, Yellow fever, Dengue Fever and West Nile Virus.

The above violations of the ORC, and the OAC, constitute a violation of ORC 3714.13 which states:

**"(A) No person shall violate any section of this chapter.
(B) No person shall violate a rule adopted under this chapter.
(C) No person shall violate an order issued under this chapter.
Violation of an order issued by a board of health under this chapter is not also a violation of section 3709.20 or 3709.21 of the Revised Code, whichever is applicable."**

The Ohio Administrative Code (OAC) and the Ohio Revised Code (ORC) specifically prohibit open dumping of solid wastes.

This letter serves to inform you that:

- **All solid wastes must be removed for proper disposal (E.g., solid waste in a licensed sanitary landfill) and must be taken to a licensed solid waste facility.**
- **Scrap tires that you wish to keep for resale must be inventoried and stored in compliance with Rule or scrap tires should be removed by a registered scrap tire hauler.**
- **Please provide, at a minimum, a time frame for removal of all debris and an action plan for the removal. The plan must also contain the location of the licensed facility where debris will be taken for proper disposal. The plan must also contain milestones projecting completion of work.**
- **Receipts documenting proper disposal must be submitted to Ohio EPA, Southwest District Office (SWDO), Division of Solid and Infectious Waste Management (DSIWM) at the letterhead address.**
- **A re-inspection will be scheduled to verify that the clean-up is complete to document your return to compliance with Ohio Law.**

Please respond in writing within fourteen (14) days of receipt of this correspondence regarding your remedy and implementation schedule in regards to the aforementioned violations. Failure to comply with this Notice of Violation will result in escalated enforcement.

Compliance with the requirements outlined in this letter shall not relieve you of your obligation to comply with other legal obligations, including, but not limited to, Chapters 3704, 3714, 3734, or 6111 of the Ohio Revised Code or under the Federal Clean Water Act, Clean Air Act, Comprehensive Environmental Response, Compensation, and Liability Act, or Resource Conservation and Recovery Act remedying conditions resulting from any release of contaminants to the environment.

As such, corrections of the violations cited herein are expected to begin immediately.

Handwritten scribbles or marks in the top right corner.

Certified Mail Provides:

- A mailing receipt
- A unique identifier for your mailpiece
- A record of delivery kept by the Postal Service for two years

PS Form 3800, June 2002 (Reverse)

Important Reminders:

- Certified Mail may **ONLY** be combined with First-Class Mail[®] or Priority Mail[®].
- Certified Mail is **not** available for any class of international mail.
- **NO INSURANCE COVERAGE IS PROVIDED** with Certified Mail. For valuables, please consider Insured or Registered Mail.
- For an additional fee, a *Return Receipt* may be requested to provide proof of delivery. To obtain Return Receipt service, please complete and attach a Return Receipt (PS Form 3811) to the article and add applicable postage to cover the fee. Endorse mailpiece "Return Receipt Requested". To receive a fee waiver for a duplicate return receipt, a USPS[®] postmark on your Certified Mail receipt is required.
- For an additional fee, delivery may be restricted to the addressee or addressee's authorized agent. Advise the clerk or mark the mailpiece with the endorsement "*Restricted Delivery*".
- If a postmark on the Certified Mail receipt is desired, please present the article at the post office for postmarking. If a postmark on the Certified Mail receipt is not needed, detach and affix label with postage and mail.

IMPORTANT: Save this receipt and present it when making an inquiry. Internet access to delivery information is not available on mail addressed to APOs and FPOs.
