Troy, Ohio 45373

137011 RTC

Dear Ms. Quillen:

On March 7, 2007, I conducted follow-up large generator of infectious waste inspections at the above mentioned facility. These inspections were conducted in order to determine compliance with Ohio Administrative Code (OAC) 3745-27, specifically rules governing large generators of infectious waste and compliance issues noted in the February 12, 2007, correspondence from the Ohio EPA. The noted deficiencies from the February 6, 2007, inspection were corrected and the facility was found to be in substantial compliance.

Thank you for taking the time to complete the inspection. If in the future you have any questions please contact me at (937) 285-6094.

Sincerely,

Jill Olberding, R.S.
Division of Solid and Infectious Waste Management
