Dear Mr. Roush:

On March 7, 2007, I conducted follow-up large generator of infectious waste inspections at the above mentioned facility. These inspections were conducted in order to determine compliance with Ohio Administrative Code (OAC) 3745-27, specifically rules governing large generators of infectious waste. Shipping papers were found complete and the noted violation from the February 7, 2007, inspection was corrected and the facility was found to be in substantial compliance.

If in the future you have any questions please contact me at (937) 285-6094.

Sincerely,

Jill Olberding, R.S.
