**Re: SW Ohio ENT Specialist formally Dayton Head & Neck Surgeons  
LG Generator of IW Inspection**

Dear Ms. Earick:

On August 10, 2010, I conducted a follow-up large generator of infectious waste inspection at the above mentioned facility. The inspection was conducted in order to determine compliance with Ohio Administrative Code (OAC) 3745-27, specifically rules governing large generators of infectious waste and compliance issues noted in the July 29, 2010, correspondence from the Ohio EPA. The noted violation from the July 20, 2010 inspection was corrected and the facility was found to be in substantial compliance.

Thank you for taking the time to complete the re-inspection. If in the future you have any questions, please contact me at (937) 285-6094.

Sincerely,

Jill Oberding, R.S.  
Division of Solid and Infectious Waste Management
