Dear Mr. Glauner:

On July 14, 2008, and February 24, 2009, Ohio Environmental Protection Agency (Ohio EPA), Northeast District Office (NEDO), received two submittals entitled "Groundwater Detection Monitoring Plan, July 2004, Revision 1 – July 2008" (Revision 1) and "Groundwater Detection Monitoring Plan, July 2004, Revision 2 – February 2009" (Revision 2). These documents were prepared and submitted by Mr. Fraser Hamilton of Earth Consulting, LTD, on behalf of the City of Westlake.

Westlake Landfill closed under the 1990 Solid Waste Landfill Regulations, and is currently conducting post-closure ground water detection monitoring in accordance with OAC Rule 3745-27-10 of the 2003 revised Solid and Infectious Waste Regulations. The report was prepared and submitted to conform with OAC 3745-27-10 of the 2003 revised Solid and Infectious Waste regulations.

The following violations were identified during the review of the subject documents:

- 1) **OAC Rules 3745-27-10(A)(1)(a)(iii), -27-10(D)(5)(a) and -27-10(D)(5)(c): require that the Ground Water Detection Monitoring Plan (GWDMP) include a parameter list, including that ground water samples from each well screened in the uppermost aquifer system be analyzed semiannually for Appendix I parameters 1-66, and annually for Appendix I parameters 67-78.**

Both Revision 1 and Revision 2 (Section 4.3.8, page 22) do not include all of the parameters numbered 1-66 from Appendix I of OAC 3745-27-10 for semi-annual ground water detection sampling and analysis, nor do they include all of the parameters numbered 67-78 from Appendix I of OAC 3745-27-10 for annual ground water detection sampling and analysis.
