**RE: DONNELL FORD  
NOTICE OF VIOLATION**

Ray Wilkins  
Donnell Ford  
152 Continental Drive  
Salem, OH 44460

Dear Mr. Wilkins:

On September 21, 2011, I inspected Donnell Ford located at 152 Continental Drive, Salem, Ohio. The purpose of this was to determine if Donnell Ford was in compliance with Ohio's hazardous waste and used oil laws and rules as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

This letter will document any violations and concerns found and outline what you need to do to correct them. A written response to these issues is required within 30 days.

The following violations were found:

1. **OAC Rule 3745-52-11 – Hazardous waste determination.**

This rule requires that any person who generates a waste must determine if that waste is a hazardous waste.

Donnell Ford violated this rule by disposing of waste lamps (including fluorescent lamps) with regular trash without determining whether or not they are a hazardous waste. Fluorescent and some other types of lamps contain mercury and may contain other hazardous metals. When burned out they may be a hazardous waste. In general, waste lamps should be saved in a properly labeled and closed container (such as a cardboard box) and picked up by a lamp recycler. The following document which gives more information on this is enclosed:

Ohio's Universal Waste Rules: Are You Handling Used Lamps Correctly?, 2010  
<http://www.epa.ohio.gov/portals/41/sb/publications/Lampcompliancechecklist.pdf>

Local lamp recycling companies are listed in the following document which is also enclosed:

Waste Disposal and Recycling Companies in Northeast Ohio, 2009

**Please send me a description of how you will now properly manage waste lamps.**

Donnell Ford also violated this rule by having three metal drums and three plastic drums of waste stored outside that you had not determined whether they contain hazardous waste. There was also another drum stored outside of the Crestview Auto Body area. It was not clear who had generated this drum of waste. **Please send me a description of what is in these drums and how you plan to dispose of them.**

2. **OAC Rule 3745-273-13 (D)(2) - Universal waste lamp containers.**

This rule requires a handler of universal waste to immediately clean up and place in a container any lamp that is broken.

Donnell Ford violated this rule by having a broken fluorescent lamp on the ground next to the solid waste dumpster. This was cleaned up during the inspection.

3. **OAC Rule 3745-279-22(C) - Used oil labels.**

This rule requires containers and aboveground tanks for used oil to be labeled or marked clearly with the words "Used Oil." The following documents regarding used oil are enclosed:

The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil, 2006

Registered Used Oil Transporters in Northeast Ohio, 2011

Donnell Ford violated this rule by having a used oil tank that was not labeled as used oil. **Please send me documentation, such as a photo, showing this tank has now been properly labeled.**
