Blair Rubber Company

Seville, OH 44273

Dear Mr. Jentzsch:

On January 31, 2007, the Ohio Environmental Protection Agency (Ohio EPA) received Blair Rubber Company's (BRC) *Hazardous Waste Storage Area Decontamination and Rinseate Sampling* report for the former BRC facility located in Copley, Ohio. The report was submitted in response to a concern listed in Ohio EPA's January 10, 2007 PRTC letter.

Ohio EPA's review of this documentation reveals the BRC has abated all violations found during the December 28, 2006 Cessation of Regulation Operations (CRO) inspection.

If the facility has not done so all ready, please send a letter to Ohio EPA's Central Office to deactivate the EPA site identification number for the Copley facility.

Should you have any questions, please feel free to call me at (330) 963-1278.

Sincerely,

Wade Balsler
District Representative
Division of Hazardous Waste Management
