RE: BOSCH REXROTH
OHD 097 612 378
WAYNE COUNTY
CESSATION OF REGULATED OPERATIONS

Robert Warren
Bosch Rexroth
P.O. Box 394
Wooster, OH 44691

Dear Mr. Warren:

Ohio EPA has received your December 13, 2007 Cessation of Regulated Operations (CRO) 30-day notification form for Bosh Rexroth's Wooster, Ohio facility, which has ceased operations on November 27, 2007.

Please be advised that Johnson Controls is required to submit a 90-day final notification form no later than February 27, 2008. All regulated substances must be properly removed by this date and all supporting documentation showing proper removal must be included. Please be advised that, in addition to other requirements, Bosch Rexroth must do the following:

1. Secure the facility against unauthorized entry and post warning signs as required by section 3752.02 of the Ohio Revised Code (ORC);
2. Conduct inspections of the facility every 7 days and record the inspections in a log as required by section 3745-352-30(C)(1) of the Ohio Administrative Code (OAC).
3. Bosch Rexroth may also be subject to generator closure requirements found in OAC Chapter 3745-52-34, for its hazardous waste accumulation area(s).

Please consult Ohio EPA's CRO manual for further information about these and other requirements:
http://www.epa.state.oh.us/dhwm/cro/CRO_Manual.pdf

Please note ORC 3752.08 requires Ohio EPA to conduct an inspection of Bosch Rexroth to ensure that all regulated substances have been removed.

Failure to list specific deficiencies or violations in this communication does not relieve Bosh Rexroth from the responsibility of complying with all applicable Ohio EPA laws and regulations. Please be advised that present or past instances of non-compliance can continue as subjects of pending or future enforcement actions.

Please feel free to contact me at: (330) 963-1170 if you have any questions.

Sincerely,

Edward J. D'Amato
Environmental Specialist
Division of Hazardous Waste Management
