Marion County  
Compliance Evaluation Inspection  
Used Oil Generator  
Notice of Violation  
OHD987045010

September 03, 2009

Mr. Jeremy Wright, Owner  
Integrity Auto Repair, LLC  
423 Beech Street  
P.O. Box 215  
Green Camp, Ohio 43322

Dear Mr. Wright:

Thank you for accompanying me during the Ohio Environmental Protection Agency's (Ohio EPA's) August 21, 2009, compliance evaluation inspection of Integrity Auto Repair, LLC (IAR) located at the address stated above. I visited the business location to verify business activity since the status of the previous business, Houser Racing, was unknown and our records indicated an outstanding violation for that business. Consequently, I inspected IAR to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC), and Chapter 3745 of the Ohio Administrative Code (OAC). Pollution prevention options were also discussed during this inspection. This letter will list violations I found during the inspection.

IAR is a small automobile repair garage. IAR works on activities typically found in a auto repair garage: mechanical engine repair, brake repair/replacement, auto fluid replacement, etc. Wastes generated at the facility include used oil and used antifreeze/coolant. During the inspection you stated that the building owner is currently responsible for changing your burned out light bulbs and properly managing them. At the time of the inspection, IAR was not a generator of hazardous waste. I found the following violations of Ohio's hazardous waste laws. You must provide me the requested information within 30 days of receipt of this letter.

1. **OAC Rule 3745-279-22(C)(1): Used Oil – Storage container labeling**

Containers, aboveground tanks and fill pipes used for underground storage tanks shall be labeled or marked clearly with the words "Used Oil."

Mr. Jeremy Wright

Page 2

All containers storing used oil were not properly labeled with the words "used oil" at the time of the inspection.

***This violation was abated during the inspection.***

2. **OAC Rule 3745-279-24: Used Oil – Off-site shipments of used oil by generators.**

Generators must ensure that their used oil is transported only by transporters who have obtained U.S. EPA identification numbers.

IAR failed to have its used oil transported by a transporter that has obtained a U.S. EPA identification number.

You stated during the inspection that you have been giving the used oil to another auto repair business that has been burning the used oil in a used oil furnace for energy recovery. During the inspection, I advised you to stop this practice immediately.

To abate this violation, IAR must identify a proper way to manage its used oil. If you decide to send the used oil off-site for recycling, you must ensure that the transporter has the proper U.S. EPA identification number and the used oil is being properly recycled. You must state in writing what you are planning to do and include a copy of the used oil recycling agreement.

The Division of Hazardous Waste Management has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign up for this free service. You can find more information at <http://www.epa.state.oh.us/dhwm/listserv.html>. Please feel free to share this information with your colleagues.

As we discussed during the inspection, you may be able to reduce the waste your company generates. If you find ways to recycle, reduce or altogether eliminate the amount of waste that your company generates, you may be able to reduce your treatment and disposal costs. Thus, you may possibly reduce your regulatory requirements. Ohio EPA has helpful information about pollution prevention at the following web address: <http://www.epa.ohio.gov/ocapp>.

For your information I am enclosing the following documents: The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil, April 2006; Universal Waste Rules for Handlers of Lamps, June 2005; Universal Waste, December 2004; Used Oil Recyclers, 2009; and Registered Used Oil Collection Centers, May, 2005.

Enclosed you will find a copy of the checklists that were completed during the inspection. You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/dhwm/>.

Should you have any questions or if I can be of assistance, please contact me at (419) 373-3015.

Sincerely,

Edgar V. Pulido
