Complaint #2939/CEI
Used Oil Generator
RTC

March 9, 2010

Mr. Tom Giannone, Environmental Manager
Monro Muffler & Brake Service
200 Holleder Parkway
Rochester, New York 14615

Dear Mr. Giannone:

Thank you for submitting the requested information received by Ohio EPA on February 11, 2010. You submitted this information in response to my January 5, 2010, Notice of Violation. The documentation you submitted included a copy of a lab report for TCLP RCRA metal analysis on a sample of the spent brake drum grinding waste. The analysis showed that the sample was non-hazardous. You stated that you will continue to process this waste with other metals that are sent for recycling from your facility.

My review of this documentation reveals that Monro Muffler & Brake Service has now abated all the violations discovered during the December 15, 2009, inspection and complaint (#2939) investigation as listed below:

Letter Citation #	Rule Citation	Date Discovered	RTC Date
1	OAC Rule 3745-52-11, Waste Evaluation	12/15/2009	02/11/2010
2	OAC Rule 3745-279-22(C)(1): Used Oil - labeling	12/15/2009	12/15/2009

Should you have any questions or if I can be of assistance, please contact me at (419) 373-3015.

Sincerely,

Edgar V. Pulido
Division of Hazardous Waste Management
