Re: Ohio & Michigan Paper Co.  
Wood County  
OHR000117812  
Hazardous Waste  
Notice of Violation

October 7, 2009

Mr. Al Leininger  
Ohio & Michigan Paper Company  
350 4th Street – Ampoint Industrial Park  
Perrysburg, Ohio 43551

Dear Mr. Leininger:

On September 23, 2009, Wendy Miller and I conducted a compliance evaluation inspection at Ohio & Michigan Paper Co. (OMPC) located at 350 4th Street – Ampoint Industrial Park in Perrysburg, Ohio. We inspected OMPC to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC).

Pollution prevention options were also discussed during this inspection. This letter will explain the violation we found and what you need to do to correct this violation.

During our visit we spoke with you regarding the facility and its operations. OMPC distributes janitorial items, industrial paper products and safety items. OMPC buys these items in bulk and then sells smaller quantities to their customers. You stated that years ago there was a parts repair area that utilized a parts washer. The repair area is no longer in use and has been converted to an indoor baseball batting area for the employees. No used oil is generated and all vehicle maintenance is outsourced as needed.

OMPC also generates spent fluorescent lamps which are managed as solid waste. At the time of our inspection, OMPC was operating as a non-generator of hazardous waste.

We found the following violation of Ohio's hazardous waste rules. In order to correct this violation you must do the following and send me the required information within 30 days of your receipt of this letter:

**1. OAC Rule 3745-52-11: Waste Evaluation**

Any person who generates a waste must determine if that waste is a hazardous waste by using generator knowledge or by testing the waste.

Mr. Al Leininger  
October 7, 2009  
Page 2

OMPC failed to have waste evaluation documentation or an established recycling plan in place for the fluorescent bulbs generated at the facility.

Hazardous bulbs are considered "spent materials" and remain hazardous waste even when recycled. Hazardous waste lamp generators have the option of handling their lamps as hazardous waste or as universal waste.

Managing hazardous waste lamps under the universal waste rules eases certain regulations imposed on generators of spent lamps.

Please be aware that incandescent, fluorescent, metal halide, neon, high-intensity discharge, high-pressure sodium and mercury-vapor lamps could be hazardous waste when discarded. Fluorescent lamps may contain up to 40 milligrams (mg) of mercury, depending on the brand and manufacturer. Lamps may also contain lead and cadmium. Many lamps exhibit a characteristic of toxicity for heavy metals when disposed. A copy of Fluorescent Lamps: What You Should Know, was given to you at the time of our inspection. I recommend that you review this document and contact me if you have any questions.

OMPC must submit to Ohio EPA documentation to demonstrate how you plan to properly manage your fluorescent bulbs. If OMPC plans to manage the spent fluorescent bulbs when generated as universal waste, please submit the name of the facility where you plan to recycle the bulbs. OMPC must also properly train employees, who handle or have responsibility for managing universal waste, on waste handling and emergency procedures relative to their responsibilities. Please review the universal waste requirements with the appropriate employees and send me documentation that this has been completed.

Ohio EPA has helpful information about compliance assistance and pollution prevention at the following web address: <http://www.epa.ohio.gov/ocapp>. In addition, you can find copies of the rules and other information on the division's web page at: <http://www.epa.ohio.gov/dhwm/>.

If you have any questions or I can be of assistance, please contact me at (419) 373-3066.

Sincerely,

Melissa L. Boyers  
Division of Hazardous Waste Management

**Waste Codes for Federally Regulated Hazardous Wastes.** Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g. D001, D003, F007, U112). Use an additional page if more space is needed. If there are more than 7 waste codes and they are the same as listed in the most recent RCRAinfo source record, you do not need to list them all. Instead just indicate the date of the most recent source record.

**COMMENTS: USE THIS AREA TO DESCRIBE WHETHER THE INSPECTION WAS ANNOUNCED, WHETHER THE WASTE IS STORED IN TANKS OR CONTAINERS, ETC.**

Announced  Yes  No Additional Facility Representatives:  
 Tanks  Yes  No Other Comments: **Parts repair area no longer in use, no parts washer on-site**  
 Containers  Yes  No
