Re: Autobahn Garage, LLC
Hancock County
Hazardous Waste
NOV
OHR000165431

October 5, 2011

Mr. Tab Tanner
Autobahn Garage, LLC
415 North Main Street
Suite #2
Findlay, Ohio 45840

Dear Mr. Tanner:

Thank you for accompanying me during the Ohio Environmental Protection Agency's (Ohio EPA's) September 14, 2011, hazardous waste compliance evaluation inspection of Autobahn Garage, LLC (Autobahn) located at 415 North Main Street, Suite #2, Findlay, Ohio. This inspection was conducted to determine Autobahn's compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC), and Ohio's hazardous waste regulations as adopted under Chapter 3745. of the Ohio Administrative Code (OAC). Autobahn was represented by Candice Hernandez and you. The inspection included a tour of facility operations and a review of facility paperwork. This letter will explain the violations found, what you need to do to correct these violations, two areas of concern and how you need to address these areas of concern.

Autobahn is a European auto service shop. Only mechanical work is performed at this shop – no body work or painting is conducted at Autobahn. Autobahn is a non-generator of hazardous waste. Other wastes generated at Autobahn include used oil, lead-acid batteries and antifreeze.

Used oil is burned in an on-site multi-oil heating system, Model CB1750 which has a BTU value of 175,000. Used oil you generate, used oil which is dropped off from household do-it-yourselfers and businesses and used oil which is picked up from other businesses is stored in six 250-gallon plastic totes and the occasional 55-gallon drum(s).

I found the following violations of Ohio's used oil rules. In order to correct these violations you must do the following and send me the required information **within 30 days** of your receipt of this letter:

1. OAC Rule 3745-279-23: On-Site burning of used oil:

Generators may burn used oil in used oil-fired space heaters provided that the heater burns only used oil that the owner or operator generates or used oil received from household do-it-yourself used oil generators.

Autobahn has been collecting used oil from other generators (i.e. Bluffton Flying Service) and burning it in the on-site furnace.

Autobahn must cease burning used oil obtained from sources other than what is generated at your facility or from household do-it-yourself generators.

To abate this violation, Autobahn must submit a copy of an internal policy outlining your used oil practices and procedures.

2. OAC Rule 3745-279-31(B)(2): Used Oil Collection Centers must register with Ohio EPA:

Owners or operators of used oil collection centers must be registered with Ohio EPA, on a form prescribed by the director, to manage used oil.

Autobahn has been allowing businesses to drop off used oil at their facility without registering with Ohio EPA as a used oil collection center.

To abate this violation, Autobahn must state within their used oil policy whether they wish to be a used oil collection center and submit this policy to me. If so, Autobahn must submit a copy of the registration form which they filled out and mailed in registering with Ohio EPA as a used oil collection center. Via email on September 15, 2011, I sent you the link for this registration form. I have included this link to register as a used oil collection center below as well:
<http://epa.ohio.gov/portals/32/pdf/usedoilform.pdf>

3. OAC Rule 3745-279-42(A): Notification:

Used oil transporters who have not previously notified Ohio EPA or U.S. EPA of regulated waste activity must notify Ohio EPA of regulated waste activity and obtain an EPA identification number.

Autobahn has been transporting used oil from off-site generators to your facility without an Ohio EPA identification number.

Autobahn must cease transporting used oil from off-site generators to your facility, or notify Ohio EPA and obtain an identification number.

To abate this violation, Autobahn must submit written documentation outlining what your intentions are regarding the transportation of used oil.

4. OAC Rule 3745-279-43(A)(1-4): Used oil transportation:

A used oil transporter shall deliver all used oil received to another used oil transporter; a used oil processing/re-refining facility; an off-specification used oil burner facility; or an on-specification used oil burner facility.

Autobahn was delivering used oil collected from off-site generators to their own facility and burning it in the on-site furnace.

Autobahn must determine if you want to operate as a used oil transporter. If not, Autobahn must immediately cease delivering used oil to your own facility and ensure that it is delivered to one of the above mentioned facilities. If so, Autobahn must comply with all applicable rules for used oil transportation in OAC Rule 3745-279-40 through 47.

To abate this violation, Autobahn must notify Ohio EPA of your intentions to operate as a used oil transporter.

5. OAC Rule 3745-279-44(A): Rebuttable presumption for used oil transporters:

A used oil transporter must determine whether the total halogen content of the used oil being transported or stored is above or below 1000 parts per million (ppm). The transporter shall make this determination by testing the used oil or applying knowledge of the halogen content based upon the materials or process used. The transporter must retain all record of analyses and information used to make this determination for three years.

Autobahn did not determine the total halogen content of the used oil they were collecting from off-site generators and transporting to their facility.

Autobahn must determine if you want to operate as a used oil transporter. If so, Autobahn must immediately determine the total halogen content of the used oil transported to your facility.

To abate this violation, Autobahn, must submit a copy of this documentation to Ohio EPA for review.

6. OAC Rule 3745-279-46(A)(1-5)(D): Tracking of used oil by transporters:

A used oil transporter must keep a record of each shipment of used oil. Each record shall include:

- A. OAC Rule 3745-279-46 (A)(1): Name and address of the generator;
- B. OAC Rule 3745-279-46 (A)(2): U.S. EPA ID # of the generator;
- C. OAC Rule 3745-279-46 (A)(3): Quantity of used oil accepted;
- D. OAC Rule 3745-279-46 (A)(4): Date the used oil was accepted from the generator;
- E. OAC Rule 3745-279-46 (A)(5)(a): The signature of a representative or the generator;
- F. OAC Rule 3745-279-46 (D): The transporter must retain all records for at least three years.

Autobahn has not been maintaining any record of the shipments of used oil they have been collecting and transporting to their facility.

Autobahn must determine if you want to operate as a used oil transporter. If so, Autobahn must immediately begin tracking all shipments of used oil.

To abate these violations, Autobahn must maintain records for each shipment of used oil that include the above required information. These records are to then be retained for at least three years.

Areas of Concern:

- I. If Autobahn wants to continue burning used oil generated by other businesses and operate as a used oil marketer, you will need to determine if the used oil is on-spec in accordance with the table located in OAC Rule 3745-279-11. If it is off-spec used oil, Autobahn must comply with the burner regulations in OAC Rule 3745-279-60 through 67.

During the CEI, we spoke at length about Autobahn becoming a used oil marketer. You stated that a "hodge podge" of customers drop used oil off at your facility – mostly household do-it-yourself generators but other businesses as well. You stated at this time that you did wish to become a marketer.

You also stated that upon sampling the used oil that you would like to collect from businesses, that if any of the oil is determined to be off-specification you will not pick it up as you did not want to become a used oil burner. During the CEI, I provided you with the following fact sheets: Burning Used Oil in a Space Heater – For Businesses August 2011; The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil; The regulation of Used Oil: Transporters and Transfer Facilities; Used Oil Processors and Re-Refiners. In addition I provided a chart of the Common Used Oil Management Standards and a list of Commercial Environmental Laboratories.

On September 15, 2011, I emailed you the link to the notification form to register as a used oil marketer. In addition, I emailed you the link to fill out the form to become a used oil collection center.

If Autobahn, does plan to become a used oil marketer then you need to provide notification and determine if the used oil you collect from businesses is on-specification in accordance with the table in OAC Rule 3745-279-11. All of the information you need to comply with can also be found in the fact sheets given to you during the CEI. In addition here is the link again to Ohio EPA's notification of Regulated Activity Form: <http://www.epa.state.oh.us/Default.aspx?tabid=3915>.

To satisfy this area of concern, Autobahn must submit a copy of an internal policy outlining your used oil practices and procedures including whether you plan to become a marketer. If you choose to become a marketer, please submit to me a copy of your notification form (with ID number if you have received it) and all documentation indicating that you are adhering to the used oil marketer requirements found in OAC Rule 3745-279-70 through 75.

- II. I also provided you information pertaining to the management of lamps. I provided the following information: the fact sheets Universal Waste Rules for Handlers of Lamps; Fluorescent Lamps: What you Should Know; a list of lamp recyclers in Ohio and a sample universal waste management plan. Autobahn should be managing their lamps as outlined in this information.

To satisfy this area of concern, please submit information on how you are managing your spent lamps if you have generated any lamps to date. If you are disposing or recycling your lamps, please state with whom. If you have a universal waste management plan (you could utilize the sample plan given to you during the CEI), please submit this information as well.

Mr. Tab Tanner
October 5, 2011
Page 6

SPCC:

It appears that based on the total above capacity of Autobahn to store used oil that Autobahn would be subject to the Spill Prevention, Control and Countermeasure (SPCC) requirements.

SPCC regulations apply to any facility that has an above ground storage capacity of oil or oil product of 1,320 gallons or more. Since you have a capacity to store used oil up to at least 1500 gallons, the SPCC requirements may apply to Autobahn. During the CEI, I provided you with a fact sheet from Ohio EPA on SPCC as well as a fact sheet from U.S. EPA on SPCC. The U.S. EPA regulates the SPCC program. Please consult the information provided to you during the CEI for additional information and/or the U.S. EPA website <http://www.epa.gov/region5oil/plan/spcc.html>.

Autobahn recycles their batteries with Dick's Auto Supply or KOI. Autobahn should consider recycling your properly drained used oil filters as scrap metal. I have enclosed a list of used oil filter recyclers. If you find additional ways to recycle, reduce, or altogether eliminate the amount of waste that your company generates you may be able to reduce treatment and disposal costs. Furthermore, you may possibly reduce your regulatory requirements. Or if you would like a free, non-regulatory on-site pollution prevention assessment or more information about pollution prevention, please contact me at (419) 373-3082. Ohio EPA has helpful information about this at the following web address: <http://www.epa.ohio.gov/ocapp/>

The Ohio Department of Development's Office of Energy Efficiency may be able to help with energy efficiency issues. Their website is at: <http://www.development.ohio.gov/cdd/oeef/>

Ohio EPA will issue an EPA ID number to track our inspection activity at Autobahn. You cannot use this number for manifesting hazardous waste shipments. If you want to use an EPA ID number for manifesting and other hazardous waste, used oil or universal waste activities, you must complete and submit a Notification of Regulated Waste Activity form (*EPA Form 9029 (Rev. 9/2010)*) to Ohio EPA. This form is available on our Web page at <http://www.epa.state.oh.us/Default.aspx?tabid=3915> or you can call me or the Division of Materials and Waste Management, Central Office at (614) 644-2621 and we will mail you a copy.

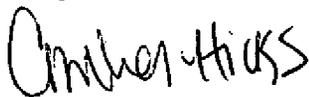

Mr. Tab Tanner

Page 7

The Division of Materials and Waste Management (DMWM) has created an electronic news service to provide you with quick and timely updates on events and news related to hazardous waste activities in Ohio. If you haven't already, we encourage you to sign-up for this free service. You can find more information at the following Web link http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage. Please feel free to share this information with your colleagues.

Enclosed you will find a copy of the checklists that I completed during the inspection. Please address all correspondence to Amber Hicks, Ohio EPA, 347 N. Dunbridge Road, Bowling Green, Ohio 43402. Should you have any questions, please feel free to call me at (419) 373-3082 or email me at amber.hicks@epa.state.oh.us.

You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov/dmwm.aspx>.

Sincerely,

Amber M. Hicks
Division of Materials and Waste Management

REMARKS-GENERAL INFORMATION**General Process Information:**

Facility is only a used oil generator.

Regulatory/Enforcement History (if applicable):**Additional P2 remarks and information:**

Gave facility information on P2 options for auto service stations.

Would this facility be interested in a P2 assessment? Yes* No *If yes, refer promptly to your district P2 coordinator.

Office of Compliance Assistance and Pollution Prevention - 1-800-329-7518 or p2mail@epa.state.oh.us or www.epa.state.oh.us/ocapp/ocapp.html

Other:

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at:

https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.

PROHIBITIONS

1.	Does the generator manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: For example, used oil contaminated scrap metal stored in a pile.

2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

GENERATOR STANDARDS

4.	Does the generator mix hazardous waste with used oil? If so,	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5.	Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	--	--

NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6.	Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
7.	Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
8.	Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
9.	Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
a.	Stopped the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
b.	Contained the release?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
c.	Cleaned up and properly managed the used oil and other materials?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
d.	Repaired or replaced the containers or tanks prior to returning them to service, if necessary?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>

ON-SITE BURNING IN SPACE HEATER		
10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
<i>NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).</i>		
GENERATOR TRANSPORTATION		
11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).</i>		
COLLECTION CENTERS AND AGGREGATION POINTS		
13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
<i>NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.</i>
