William Baumann
Bradley Asbestos Abatement Company, Inc.
P O Box 609087
Cleveland, Ohio 44109-0087

Dear Mr. Baumann:

On October 17, 2007, and on November 28, 2007, I sent you letters citing a violation of Ohio Administrative Code (OAC) Rule 3745-52-11 which requires the generator of a waste to determine whether that waste is a hazardous waste. The waste in question was found in the containers listed below. These were in a trailer at Bradley Asbestos Abatement Company located at 4275 Bradley Road, Cleveland, Ohio 44109.

1. Full black, 5-gallon can labeled "Harrison – The Paint Maker" and contains "lead and/or chromate."
2. Full white, 5-gallon bucket.
3. 5-gallon, metal can with some material in it.
4. Closed, 55-gallon drum that appeared to have a small amount of material in it.
5. One gallon jug that was about $\frac{3}{4}$ full of a clear liquid and that was labeled "Ant – Diazinon".

You sent me a letter on December 17, 2007, that stated once you are financially able you will dispose of these items. On January 15, 2008, I returned to Bradley Asbestos and saw that the containers were still located in the trailer. Please send me an update on your efforts to correct the current violation of OAC Rule 3745-52-11.

My November 28, 2007 letter also mentioned a violation and concern regarding 55-gallon drums at this property. Your December 17, 2007 letter and the attached receipt showing 30 scrap steel drums going to Container Compliance Corp. in Cleveland, Ohio on December 6, 2007 document your correction of that violation and concern.

William Baumann
Bradley Asbestos Abatement Company, Inc.
