SITE - GEN**

Mr. Dave Perry  
8985 Northgate Drive  
Cambridge, Ohio 43725

Dear Mr. Perry:

On October 10, 2007, this office received a packet from you containing photographs and transfer facility receipts that relate to two properties you own along Wheeling Avenue in Cambridge, Ohio. In past correspondence from this office, you have been cited for open dumping of solid waste and illegal disposal of construction and demolition debris (C&DD) at these sites. The packet contained information to verify removal and proper disposal of the illegal material at both locations. On November 7, 2007, I conducted a follow-up inspection at the sites to determine compliance. Following is a summary of my findings at the time of the follow-up inspection.

The lower site, near your office, appeared to be in substantial compliance. No solid waste or C&DD was observed at the site. It was noted that asphalt from an adjacent parking lot was being dumped at the location. Please be advised that periodic leveling of the material is necessary.

Concerning the property at the upper end of Wheeling Avenue, it did appear that an effort had been made to restrict access to the property. Also, it was evident that a considerable amount of solid waste and C&DD material had been removed from the location. I did observe a small amount of wood waste near the bottom of the hill that still needed to be removed and properly disposed of at a licensed facility.

Please remove any remaining solid waste and/or C&DD material so that I can verify compliance. I will conduct a follow-up inspection the on or about the first week of December for determine the status of the site.

If you have any questions regarding this letter, please contact me at 740-380-5439.

Sincerely,

P. Joe Holland, R.S.
