**RE: WARREN FABRICATING /
OHIO STEEL SHEET & PLATE
TRUMBULL COUNTY
RCRA / OHR000030411
COMPLAINT #7406 - PRTC**

Michael P. Link
Warren Fabricating
Executive Vice President
7845 Chestnut Ridge Road
Hubbard, OH 44425

Dear Mr. Link:

Thank you for your April 21, 2011 response to Ohio EPA's March 24, 2011 Notice of Violation letter (NOV). You submitted information and documentation, including:

- Photographic documentation demonstrating the containers of used oil have been labeled with the words "Used Oil."

My review of this documentation reveals that Warren Fabricating (WarFab) has abated the following violation observed during Ohio EPA's March 3, 2011 complaint investigation.

OAC Rule 279-22(C)(1) Used oil requirements for generators

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (*i.e.* source reduction). For those wastes and pollutants that are generated, the second is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment and improve your public image by implementing pollution prevention programs. The Office of Compliance Assistance and Pollution Prevention provides compliance and pollution prevention assistance on environmental issues related to air, land and water. Their web site is: <http://www.epa.state.oh.us/opp/ocapp.html>.

Failure to list specific deficiencies in this communication does not relieve WarFab from the responsibility of complying with all applicable hazardous waste regulations. This letter does not relieve WarFab from liability for any past or present violations of the state's hazardous waste laws.

Should you have any questions, please feel free to call me at (330) 963-1181.

Sincerely,

Suzanne Prusnek
Environmental Specialist
Division of Materials and Waste Management
