RE: **REPUBLIC ENGINEERED PRODUCTS
STARK COUNTY
OHR 000 110 197
RTC**

Mr. Patrick Monnot
2633 Eighth Street NE
Canton, OH 44704-2311

Dear Mr. Monnot:

On March 9, 2007, Ohio EPA received a letter dated March 8, 2007 from Republic Engineered Products (REP). Attached to this letter was a *Summary Report Secondary Containment Repair and Tank Modification Canton Hot Rolled Bar Plant* dated March 7, 2007 by Civil & Environmental Consultants, Inc. This letter was in response to Ohio EPA's July 12, 2006 Notice of Violation letter (NOV) and pursuant to Section V.1 of the December 11, 2006 Director's Final Findings and Orders.

Pam McCoy with the Division of Hazardous Waste's Central Office has reviewed this documentation regarding the hazardous waste tank system at REP and has determined that REP has adequately demonstrated abatement of the following violations as noted in the July 2006 NOV:

8. **Containment and Detection of Releases OAC rule 3745-66-93(E)(1), and**
10. **General Operating Requirements, OAC rule 3745-66-94 (B)(2)**

Failure to list specific deficiencies and/or violations in this communication does not relieve Republic Engineered Products from the responsibility of complying with all applicable laws, rules and regulations.

Should you have any questions, please feel free to call me or my supervisor, Frank Popotnik at this office.

Sincerely,

Karen L. Nesbit
Division of Hazardous Waste Management
