Mr. Chad Yoder
ProVia Door Company
2150 State Route 39
Sugarcreek, Ohio 44681

Dear Mr. Yoder:

Thank you for your June 12, 2009, response to Ohio EPA's May 14, 2009, Notice of Violation letter. The documentation you submitted included photos showing the routing of the flexible hose from the paint line purge to the container accumulation area along with a photo of the hazardous waste tote now re-located to the container accumulation area. You indicate in the letter that the HW tote will be kept in the container accumulation area and filled via the hose installed running from the paint line to the room.

My review of this documentation reveals that ProVia Door Company has now abated the outstanding violation (Violation #1 in the May 14, 2009 NOV letter) discovered during the April 29, 2009, inspection. As a reminder, the hazardous waste container accumulation rules apply to the tote when it contains hazardous waste. Also, it must not be accumulated for longer than 90 days starting with the day hazardous waste is first placed in the tote.

Should you have any questions, please feel free to call me at (330) 963-1231.

Sincerely,

Tom Roth
District Representative
Division of Hazardous Waste Management
