**RE: LAWRENCE COUNTY
TIRES - GENERAL
20070122**

Mr. Danny Maynard
1186 Goodwill Road
Huntington, West Virginia 25701

Dear Mr. Maynard:

The Southeast District Office of Ohio EPA received a complaint that open dumping of scrap tires is occurring on property located off of County Road 104, in Lawrence County, Ohio. I conducted an inspection of this property on April 4, 2007. I observed that approximately 100 scrap tires and additional solid waste has been dumped and burned on this property. I also observed an area where scrap tires have been burnt.

The dump site is in the flood plain of Symmes Creek. Property records obtained from the Lawrence County Court House indicate that this property may belong to you.

Under Ohio Revised Code Chapter 3734.01(E) and Ohio Administrative Code Rule 3745-27-01(S)(24), "solid waste" includes scrap tires.

Scrap tires must be properly stored and managed in accordance with the Ohio Administrative Code Rule 3745-27-60. Improper storage of scrap tires is considered open dumping of solid waste and is a violation of the Ohio Administrative Code.

Improper storage of scrap tires poses several potential problems for the local residents, environment, and the emergency crews in the area. Scrap tires provide an optimal breeding ground for mosquitoes. Mosquitoes identified at tire piles in Ohio can carry St. Louis Encephalitis, La Crosse Encephalitis, Yellow Fever, Dengue Fever and West Nile Virus.

Scrap tire fires are a source of air pollution and can cause respiratory problems for those that breathe the smoke. Tire fires are also difficult for emergency crews to extinguish.

Open dumping of solid waste is a violation of Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745-27 of the Ohio Administrative Code (OAC).

Presently, you are in violation of the following referenced laws and rules.

1. ORC Section 3734.03 states: "No person shall dispose of solid wastes by open dumping or open burning."

**LAWRENCE COUNTY
TIRES - GENERAL
APRIL 8, 2007
PAGE 2**

OAC Rule 3745-27-05(C) states: "No person shall conduct, permit, or allow open dumping. In the event that open dumping is occurring or has occurred at a property, the person responsible for the open dumping, the owner of the property, or the person who allows or allowed open dumping to occur, shall promptly remove and dispose or otherwise manage the solid waste in accordance with Chapter 3734, of the Revised Code, and shall submit verification that the solid waste has been properly managed."

Scrap tires and solid wastes are open dumped on the property. This is a violation of ORC Section 3734.03 and OAC Rule 3745-27-05(C).

2. Pursuant to OAC Rule 3745-27-60(B), the storage of scrap tires in any amount outside or inside a trailer, vehicle, or building shall be deemed a nuisance, a hazard to public health or safety or a fire hazard unless the tires are stored in accordance with specific standards set forth under OAC Rule 3745-27-60(B)(1) through (10).

The scrap tires on the property are a nuisance, a hazard to public health or safety or a fire hazard because they are improperly stored and managed. This is a violation of OAC Rule 3745-27-60(B).

3. The law requires control of disease vectors related to any storage of scrap tires. Therefore, pursuant to OAC Rule 3745-27-60(B)(8)(a) and (b) one or more of the following must be done to control mosquito populations: (1) remove liquids from the scrap tires and immediately store the scrap tires such that water does not accumulate in scrap tires or containers, or (2) apply or arrange for the application of a pesticide or larvicide, which is registered for use for mosquito control by the Ohio Department of Agriculture, at no greater than (30) day intervals or as recommended by the manufacturer or formulator. If applying any pesticide or larvicide as a mosquito control, then mosquito records shall be maintained at the premises indicating the name, type, amount used per tire and EPA registration number of the pesticide or larvicide, the date and time of application, and the name of person who applied the pesticide or larvicide.

It appears that no mosquito control is being conducted by you at the property, and many tires are full of water. This is a violation of OAC Rule 3745-27-60(B)(8).

4. OAC 3745-27-54(A) No person shall transport scrap tires in the state of Ohio without first obtaining an annual registration certificate.

You are not registered with Ohio EPA to transport scrap tires.

Open dumping of scrap tires and solid wastes must cease immediately. All scrap tires and assorted solid wastes disposed at the described location are to be removed from the property and taken to a licensed solid waste disposal facility for proper disposal.

LAWRENCE COUNTY
TIRES - GENERAL

Obtain copies of receipts from the landfill or waste hauler that received the waste and provide those copies to this District Office in order to document your compliance. Please respond to this District Office within fifteen days of receipt of this letter to inform me of your intentions and actions taken regarding the open dump.

The disposal facility located nearest to you is the Pike Sanitation Landfill at 11775 State Route 220, Waverly, Ohio. The Portsmouth Exempt Transfer Station is also located on Elm Street in Portsmouth, Ohio. You may choose to use other permitted and licensed facilities as well.

Compliance with the requirements outlined in the letter, or the solid and infectious waste provisions contained on ORC Chapter 3734 and the rules promulgated thereunder, does not relieve the owner of his or her obligation to comply with other applicable State and Federal laws and regulations.

Should you have questions, please contact me at this office at (740) 380-5246.

Sincerely,

Clint Shuff, R.S.
