5537 South Hyde Park Blvd,
Chicago, Illinois 60637

Dear Mr. Vogelsang:

The Southeast District Office of the Ohio EPA conducted an inspection of the solid waste cleanup project that is occurring on property located off of County Road 33, Blackfork Firebrick Road, in Lawrence County, Ohio. This property is adjacent northeast of the Plibriko Company, and owned by Plibriko. I conducted an inspection of the property on December 26, 2007.

Allard Excavating of South Webster, Ohio conducted the cleanup. Mr. Allard informed me that 20 cubic yards of solid waste and 178 tires were removed from the property. The scrap tires were transported by Porter Tire of Olive Hill, Kentucky. The solid waste was disposed of in a roll-off container provided by Bull Dog Container of Wheelersburg, Ohio.

During this inspection, I observed that the solid waste that was dumped on the property on the ground and into the pond has been removed and disposed. I would like to thank you for complying with Ohio's solid waste laws.

Should you have questions, please contact me at (740) 380-5246.

Sincerely,

Clint Shuff, R.S.
Environmental Specialist
Division of Solid and Infectious Waste Management
