Dear Mr. Brown:

On April 27, 2010, Trevor Irwin, representing Ohio EPA, Southeast District Office, conducted an inspection of the Brown Brothers Landfill. The findings and observations of this inspection are as follows:

Cover vegetation continues to grow throughout the facility. Several small trees are growing on the eastern slope of the facility. The presence of these trees could possibly contribute to the infiltration of surface water into the landfill which would produce more leachate.

In addition, I also observed that no method to limit access to the facility has been installed.

Sincerely,

Trevor L. Irwin, R.S.  
Environmental Specialist  
Division of Solid and Infectious Waste Management
