

During this inspection, I observed a leachate outbreak emanating from the northern disposal area and discharging into the upper pond. This outbreak is in the vicinity of MW-5 and is in the same area where efforts to contain leachate were undertaken in 1999.

3. **ORC 6111.04-** *No person shall cause pollution or place or cause to be placed any sewage, sludge, sludge materials, industrial waste, or other wastes in a location where they cause pollution of any waters of the state.*

As stated in the above citation for Order (1)(h), failure to control and properly manage leachate at this facility has resulted in a release of leachate into waters of the state in violation of this ORC Chapter.

May 22, 2002 DFFO-

4. **Order 2.a.-** *Within 14 days after the effective date of these orders, Respondents shall take all necessary interim measures to properly contain and manage any leachate outbreaks at the Facility to prevent pollution to waters of the State.*

Please see comments in Number 3 above.

5. **Order 3- Final Cover**

Please refer to comment number 1 above regarding Order (1)(d)(iii) of the 1995 DFFO.

6. **Order 4- Vegetation**

Please refer to comment number 3 above regarding Order (1)(e) of the 1995 DFFO.

Please contact me at 740/380-5219 if you have any questions regarding the above referenced inspection of the Morgan County Landfill.

Sincerely,

Peter C. Thompson
Division of Solid and Infectious Waste Management
