Mr. Adam Ruby
TTI Tire Ohio
co/Predator LLC
1228 Frew Mill Road
New Castle, Pa 16107

Dear Mr. Ruby:

On April 2, 2008, I conducted an inspection of the TTI Ohio Scrap Tire Recovery Facility in Malta, Ohio. This site visit was conducted to monitor progress made toward closure of the facility.

One pile of scrap tire residuals is still staged for removal at the site. A removal of all scrap tire residuals resulting from the September 12, 2007, fire is necessary. This includes a thorough removal of scrap tire material that is found outside the building area. In addition, two piles of steel residue from scrap tires remains in the building that must be removed also.

Please respond within 15 days detailing your intentions to complete closure activities at your Malta facility. Feel free to contact me at 740/380-5219 if you have any questions regarding this inspection.

Sincerely,

Peter C. Thompson
Division of Solid & Infectious Waste Management
