Mr. Ed Crock  
Crock C&DD Landfill  
17990 State Route 78  
Caldwell, Ohio 43724

Dear Mr. Crock:

On May 16, 2008, I conducted an inspection of the Crock C&DD Landfill. Equipment operator Bill Baker was present during this inspection.

During my May 16 inspection, there was no waste material delivered to the facility. The facility appeared to have adequate cover for fire protection. I observed two leachate outbreaks emanating from the eastern slope.

Violations documented during this inspection include the following:

**OAC Rule 3745-400-11(O)** - Leachate outbreaks. If there is an outbreak of leachate at the surface, the owner or operator shall do all of the following:

- (1) Contain the leachate.
- (2) Manage and dispose the leachate in accordance with applicable regulations.
- (3) Repair the outbreak.

Two separate leachate outbreaks were observed along the eastern slope. Please take immediate steps to collect and properly dispose of all leachate emanating from the facility. In addition, please take immediate steps to repair all leachate outbreaks.

Special terms and conditions were included in the 2007 License issued to the Crock C&D Landfill by the Noble County Health Department. The Crock facility is in violation of the following special terms and conditions of the 2007 license:

1. Within 60 days of issuance of this license, licensee shall submit to the Noble County Health Department and Ohio EPA a topographic survey report depicting existing contours and authorized vertical and horizontal limits of waste placement.

Based on information previously provided by you, it appears your facility is overfilled. The information required by Special Condition 1 is important in making a final determination regarding this issue. This information was due to be delivered to Ohio EPA no later than February 28, 2007.

NOBLE COUNTY

PAGE 2

2. Licensee shall immediately:
  - A. Contain all leachate
  - B. Manage and dispose of all leachate in accordance with applicable regulations
  - C. Repair all leachate outbreaks.

As noted above, leachate continues to flow from the site in violation of the OAC Rule and this special condition.

3. Within 60 days of issuance of this license, licensee shall submit a written report to the Noble County Health Department and Ohio EPA detailing actions taken to achieve compliance with conditions 1, 2, 3, and 4 above.

All required activities were to be completed no later than February 28, 2007. A report was to be submitted to the Noble County Health Department and Ohio EPA.

Within 15 days, please submit to Ohio EPA a response detailing your intentions and actions taken to abate the above cited violations. Please feel free to contact me at 740/380-5219 if you have any questions regarding the above referenced inspection of the Crock C&DD facility.

Sincerely,

Peter C. Thompson  
Division of Solid & Infectious Waste Management
