**RE: NOBLE COUNTY
FAC- CROCK C&DD**

Mr. Ed Crock
Crock C&DD Landfill
17990 State Route 78
Caldwell, Ohio 43724

Dear Mr. Crock:

I am writing as a follow-up to inspections conducted on August 5, September 1, and September 16, 2009. I was accompanied by Jim Warren on August 5, and by Steve Rine and Dave Chenault of the Ohio EPA Southeast District Office on September 5. Bill Baker was present during this inspection.

There was no waste delivered to the facility for disposal during any of these visits. I did not observe any leachate outbreaks during any of these inspections. Areas that had previously been void of adequate soil cover were appropriately covered for fire protection. The surface water diversion ditch upgradient of the area of waste placement appears to have been filled in with waste.

The following violations were observed:

OAC Rule 3745-400(B)(1)- The owner or operator shall conduct all operations at the facility in strict compliance with the license, any orders, and other authorizing documents issued in accordance with Chapter 3714. of the Revised Code.

Based on information provided by you, it appears the facility is filled above the currently approved vertical limits of waste placement.

Special terms and conditions were included in the 2007 License issued to the Crock C&D Landfill by the Noble County Health Department. The Crock facility is in violation of the following special terms and conditions of the 2007 license:

1. Within 60 days of issuance of this license, licensee shall submit to the Noble County Health Department and Ohio EPA a topographic survey report depicting existing contours and authorized vertical and horizontal limits of waste placement (Condition #1).

Based on information previously provided by you, it appears your facility is overfilled. The information required by Special Condition #1 is important in making a final determination regarding this issue. This information was due to be delivered to Ohio EPA no later than February 28, 2007.

NOBLE COUNTY
FAC- CROCK C&DD
OCTOBER 9, 2009
PAGE 2

5. Within 60 days of issuance of this license, licensee shall submit a written report to the Noble County Health Department and Ohio EPA detailing actions taken to achieve compliance with conditions 1, 2, 3, and 4 above (Condition #5).

All required activities in Condition #5 were to be completed no later than February 28, 2007. A report was to be submitted to the Noble County Health Department and Ohio EPA.

Within 15 days, please submit to Ohio EPA a response detailing your intentions and actions taken to abate the above-cited violations. Please feel free to contact me at 740/380-5219 if you have any questions regarding the above referenced inspection of the Crock C&DD facility.

Sincerely,

Peter C. Thompson
Division of Solid and Infectious Waste Management
