Subject: Inspection of Scrap Tire Handling on June 8, 2006.

Dear Mr. Sayre:

On July 18, 2007, I visited your store to talk with you regarding how your facility is managing scrap tires. At the time of my visit the scrap tire shipping papers were not available for Ohio EPA inspection. It is my understanding that these forms are maintained by your accountant off site.

OAC 3745-27-57(E) requires that a copy of the shipping records be maintained for three years. The shipping papers must be available at all times for inspection at your business location failure to maintain these shipping papers at your facility are a violation of the aforementioned regulation. A file should be established at your facility and must contain three years minimum of shipping papers.

A follow up inspection will be conducted in the near future. If you have any questions or need any assistance in the future, please feel free to call me at (740)380-5435.

Sincerely,

If you have any questions or need any assistance in the future, please feel free to call me at (740) 380-5435.

Sincerely,

Dale W. Warner R.S.
