Subject: Review of the Revised 2008 Annual Report

Dear Mr. Kimble:

On March 31, 2009, Ohio EPA, Division of Solid and Infectious Waste Management (DSIWM), Southeast District Office (SEDO), received the 2008 Annual Report for the Kimble Sanitary Landfill. This report has been reviewed by Ohio EPA – SEDO. Please find comments listed below.

Based upon Ohio EPA – SEDO review of the 2008 annual report, it appears that the report does not fully comply with all the requirements of OAC Rule 3745-27-19(M). OAC 3745-27-19(M)(5) requires that an annual leachate sample be analyzed for all the parameters listed in Appendix I of OAC 3745-27-10 and PCBs. Based on Ohio EPA's review of the data submitted as a part of the 2008 annual report, it appears that the Kimble Sanitary Landfill did not provide results for the PCB's required by OAC 3745-27-19(M)(5). The failure to submit all the required parameters is a violation of the aforementioned regulation. Please ensure that future leachate grab samples are analyzed for all the required parameters.

Should you have any questions, please feel free to contact me at (740) 380-5435.

Sincerely,

Dale W. Warner, R.S.
Environmental Specialist II
Division of Solid and Infectious Waste Management
