Belpre, Ohio 45714

Subject: Inspection of Large Generator of Infectious Waste

Dear Ms. Showalter:

On December 22, 2008, I conducted an inspection of the infectious waste handling program for the Dialysis Services of Belpre, located at 809 Farson Street in Belpre, Ohio. The inspection was conducted to determine compliance with the Ohio Administrative Code (OAC) 3745-27-30 through 3745-27-38.

The infectious waste handling techniques practiced by your staff appear to be in compliance with Ohio solid waste rules. However, numerous white copies for the shipping reports were missing from your files. They are listed on a sheet separate from this letter.

This is in violation of Ohio Administrative Code Rule 3745-27-33(B)(2) which requires large generators of infectious waste to maintain complete records of waste transported off site for treatment and proper disposal.

Please contact your infectious waste transporter for copies of the signed reports for proof of proper disposal.

If you have any questions, please feel free to contact me at (740) 380-5443.

Sincerely,

Trevor L. Irwin, RS
Environmental Specialist II
Division of Solid and Infectious Waste Management

TLI/jg
