Re: Mary Virginia Crites – Hanna Park, Pickaway County

Dear Ms. Fosnaugh:

This letter is written regarding the storm water inspection that I conducted at the Mary Virginia Crites – Hanna Park in Pickaway County, on October 5, 2011. I understand that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. It appeared during the inspection that construction activity has been completed for this site and all disturbed areas had been permanently stabilized with gravel and concrete. Please address the following:

Post Construction Requirements:

The General Permit mandates specific water quality treatment for storm water following the completion of construction (see attachment). Please be able to demonstrate your post construction requirements per the General Permit will be met. Please submit to my attention the water quality calculations demonstrating compliance. This information can be sent to my attention via a response letter, or to my email at greg.sanders@epa.ohio.gov.

If you have not already done so, a Notice of Termination will be required providing that the post construction requirements have been met. Instructions and forms can be found at <http://www.epa.state.oh.us/dsw/storm/stormform.html>.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851. I would like to add that the park is one of the nicest city parks that I have visited.

Sincerely,

Gregory L. Sanders
