**Re: Storm Water Inspection at Village at Hilliard Run / Franklin County
Permit Number: 4GC01194*AG**

Dear Mr. Kletrovetz:

This letter is written in follow up to a construction storm water inspection I conducted at the Villages at Hilliard Run located on Renner Road in Columbus, Ohio on September 13, 2011. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

Sediment and Erosion Controls:

- This site remains idle with no significant earth moving activities since my previous inspection.
- Please continue to maintain the sediment pond and the associated outlet structure located on the extreme southwestern corner of the site.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us. A follow-up inspection will be conducted to ensure the conditions of the General Permit are met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office
