**Re: Edinburgh Cove II & III / Madison County**

Dear Mr. Koppes:

This letter is written in follow-up to a construction storm water inspection that I conducted at Edinburgh Cove II & III located at the end of Wesley Drive in Madison County on September 27, 2011. The purpose of the inspection was to ensure continued compliance with the General Storm Water Permit Associated with Construction Activities. The site had no active construction. During the inspection, I noted the following:

**Sediment and Erosion Controls:**

- Most of the site was stabilized and no erosion was leaving the site. There were a few barren areas near the eastern entrance that may need to be re-seeded.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office
