Re: Defiance County  
Friends Express Automotive  
Notice of Violation  
DSIWM Case No. 09-39

October 7, 2009

CERTIFIED MAIL  
7009 0820 0000 0591 9839

Mr. Ed & Caludia Sowers  
4728 State Route 2  
Hicksville, Ohio 43526

Dear Mr. & Ms. Sowers

On September 4, 2009, I, representing the Ohio Environmental Protection Agency (Ohio EPA) completed an inspection of the former Friends Express Auto (Facility), owned and operated by you. Both of you represented the Facility during the inspection. The purpose of the inspection was to investigate a complaint alleging that the Facility disposed of scrap tires and other solid waste through open burning in an excavated hole. The complaint further alleged that this had been a practice of the Facility for multiple years and throughout the time period old holes would be filled, burying the remnants of burnt materials and chemicals, and a new hole would be excavated.

Currently the Facility is not in operation. You indicated that you had operated the Facility for years, but within the last year had rented the building out to a tenant, who also operated an automotive Facility. Due to a dispute, the tenant no longer operates at the location and you have not re-established your Facility. You stated that you still do a minimal amount of work for friends and family.

During the inspection, I observed approximately 250-300 scrap tires located to the west of the service center building (Photos 1 and 2). I also observed an excavated hole containing the remnants of burnt materials, including steel bands from tires (Photo 3). Additionally, materials that had not yet been burnt, including 5 scrap tires, fluorescent light bulbs, rubber tubing, a wooden door, and other miscellaneous materials were present within the hole (Photo 4). You stated that the tires and the burning activities were from the previous tenant; however, with your residence located on the same property as the Facility it would be unlikely for you to have not been aware of the burning activities taking place. The complainant also alleged that this had been taking place for years; however, you only began leasing the Facility out within the past year. Additionally, as the property owner you are responsible for tires left on your property by the previous tenant and any illegal burning and illegal disposal activities that have taken place. You could not produce any records indicating proper disposal of scrap tires generated from your years of previous operation, and indicated that an unlicensed tire transporter, transported tires from the Facility for disposal. You refused to provide the name of the illegal scrap tire transporter.

**Notice of Violations of Ohio laws and Rules**

Ohio Revised Code (ORC) 3734.83(C) states "Except as provided in division (D) of this section, no person who possesses scrap tires shall cause them to be transported by any person who is not registered as a transporter under this section."

**By allowing a non-registered tire transporter to transport tires generated at the Facility you are in violation of ORC 3734.83(C).**

**Additionally, shipping papers meeting the requirements outlined in OAC Rule 3745-27-56 were not utilized, therefore, you are also in violation of OAC Rule 3745-27-56.**

Any additional tires that are transported must be either transported in loads of no greater than ten tires or must be transported by a registered tire transporter. Additionally, shipping papers meeting the requirements in OAC Rule 3745-27-56 must be used for all shipments of greater than ten scrap tires.

Ohio Revised Code (ORC) Section 3734.03 states, "No person shall dispose of solid waste by open burning or open dumping, except as authorized by the director of environmental protection in rules adopted in accordance with division (V) of section 3734.01, section 3734.02, or sections 3734.70 to 3734.73 of the Revised Code and except for burying or burning the body of a dead animal as authorized by section 941.14 of the Revised Code. No person shall dispose of treated or untreated infectious waste by open burning or open dumping."

**By disposing of solid waste by open burning and/or burying you are in violation of ORC 3734.03.**

You must cease disposing of solid waste by burning and/or burying immediately, failure to do so may result in increased enforcement action. Additionally, details provided in the complaint, indicated that a large area on the property had been used for burning/burying activities and a large amount of solid waste may be buried in these areas. Ohio EPA reserves the right to require all materials to be excavated and properly disposed, in the event that additional evidence supporting this allegation is obtained.

OAC Rule 3745-27-61(A)(2)(a) states "A premises where tires are sold at retail where no more than one thousand scrap tires are present any time in an unsecured, uncovered, outdoor location, or where any number of scrap tires are secured in a building or a covered, enclosed container, trailer, or installation" is exempt from registration requirements.

**Friends Express Automotive is no longer an operating business and no longer meets this exemption. Therefore, you are only permitted to have 100 or fewer scrap tires, and all tires remaining on the property must be stored in a dry, covered location or treated monthly with a larvicide.**

Mr. and Mrs. Sowers  
October 7, 2009  
Page 3

As previously mentioned approximately 250-300 scrap tires were present at the Facility at the time of the inspection. **All tires in excess of the 100 that you are permitted to have must be removed and properly disposed and receipts indicating proper disposal must be provided to my attention at 347 N. Dunbridge Road, Bowling Green, Ohio 43402 within 45 days of receipt of this letter.** Please be aware that only a registered scrap tire transporter is permitted to transport greater than ten tires in a load. For your convenience I have attached a list of Ohio EPA registered scrap tire transporters and Ohio EPA licensed scrap tire facilities.

If you have any questions, please feel free to contact me at Ohio EPA, Northwest District Office (419) 373-4114.

Sincerely,

Brent M. Goetz, S.I.T.  
Environmental Specialist  
Division of Solid and Infectious Waste Management
