Dear Mr. Kos:

Thank you for your January 4, 2012, response to Ohio EPA's December 21, 2011, Notice of Violation letter. The documentation you submitted included information about The Ohio State University's Universal Waste Storage Area, including photographs of the appropriate labeling and marking for universal waste batteries and lamps. You also included additional information about waste handling procedures at the Hoyt L. Sherman Studio Art Center.

My review of this documentation reveals that The Ohio State University has now abated all violations discovered during the December 7, 2011 inspection of the Resource Conservation and Recovery Lab (RCRL) Campus as listed below.

Letter Citation #	Rule Citation
1.	OAC Rule 3745-52-11, Hazardous waste determination (abated 12/7/2011)
2.	OAC Rule 3745-273-34(A), Labeling/markings – standards for large quantity handlers of universal waste (batteries)
3.	OAC Rule 3745-273-34(E), Labeling/markings – standards for large quantity handlers of universal waste (lamps)

Should you have any questions, please feel free to contact me at (614) 728-3887.

Sincerely,

Melissa M. Storch
