Dear Mr. Nieves:

On September 19th, 2007, I conducted an inspection of your 1516 West Mound Street facility in Columbus, Ohio to determine its compliance with Ohio's hazardous waste laws and Used Oil Rules as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). I sent you a Notice of Violation (NOV) letter on October 12, 2007, specifying the violations observed during the inspection. I returned to the facility on February 7, 2008, to do a facility walk through.

Upon completing this walk through and review of your new waste evaluation for your paint process you have demonstrated sufficient abatement of all violations discovered during our September 19, 2007, inspection.

Letter Citation #	Rule Citation
1.	OAC Rule 3745-52-11, Waste Evaluation
3.	OAC Rule 3745-279-22 (C), Used Oil Generator Standards

General Comments:

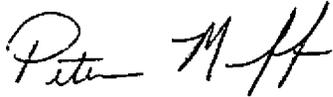

At the time of the inspection Hail Cesar Auto and Collision could not provide documentation of proper disposal of hazardous waste and was cited in violation of OAC 3745-51-05(G)(3). It has come to Ohio EPA's attention that Hail Cesar Auto has contracted with Chemtron Corporation of Avon Lake, Ohio for all hazardous waste disposal purposes and therefore Ohio EPA retracts the previous violation for off-site shipment of hazardous waste (OAC3745-51-05(G)(3)).
