Dear Mr. Kos:

Thank you for your October 3, 2011, response to Ohio EPA's September 21, 2011, Notice of Violation letter. The documentation you submitted included information about locking the flammable storage cabinet used to store the Printing Facility's satellite accumulation drum. You also included information about pesticide rinsate analysis, the Rothenbuhler Honey Bee Research Laboratory, and the Waterman Laboratory Farm Pesticide Handling Facility.

My review of this documentation reveals that The Ohio State University has now abated all violations discovered during the August 31, 2011 inspection of the Bulk Chemical Warehouse Campus as listed below.
