Mr. Scott Eldredge, Principal
Cambridge High School
1401 Deerpath Drive
Cambridge, Ohio 43725-9097

Dear Mr. Eldredge:

On September 19, 2011, this office received a complaint alleging that spent parts washer solvent from the shop class was given to students who disposed of the solvent in an unknown location. On September 22, 2011, I performed a complaint investigation to determine if the allegations were valid.

Based on this investigation, we found the allegations to be true and a notice of violation was issued to you on September 30, 2011. Another NOV was sent on November 9, 2011 and your response, which included the parts washer sampling results, was received on December 30, 2011. Based on this data, Cambridge High School has returned to compliance with the following regulation:

- (i) OAC rule 3745-52-11 Hazardous waste determination.

You have now abated all violations cited from the September 9, 2011 complaint investigation. You may manage the spent washer solvent with your used oil.

If you have any questions, please contact me by telephone at (740) 380-5278 or by e-mail at rich.stewart@epa.ohio.gov.

Sincerely,

Richard Stewart
District Representative
Division of Materials and Waste Management

RS/dh
