Mr. Julius Dziewatkoski
Eastern Gateway Community College
4000 Sunset Boulevard
Steubenville, Ohio 43952

Dear Mr. Dziewatkoski:

On January 18, 2012, I inspected Eastern Gateway Community College in Steubenville, Ohio to determine Eastern Gateway Community College's compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). During the inspection I also helped you identify ways to prevent pollution by reducing waste. This letter will explain the violations I found and what you need to do to correct the violations.

I found the following violations of Ohio's hazardous waste law. In order to correct these violations you must do the following and send me the required information ***within 21 days*** of your receipt of this letter:

1. **Waste management - standards for small quantity handlers of universal waste rule, 3745-273-13(D)**: Universal waste lamps. A small quantity handler of universal waste must manage lamps in a way that prevents releases of any universal waste or component of a universal waste to the environment, as follows: (1) A small quantity handler of universal waste must contain any lamp in containers or packages that are structurally sound, adequate to prevent breakage, and compatible with the contents of the lamps. Such containers and packages must remain closed and must lack evidence of leakage, spillage, or damage that could cause leakage under reasonably foreseeable conditions.

During the inspection, the boxes that contained the used lamps were not closed as required by the above rule. To demonstrate compliance with this rule, Eastern Gateway Community College must submit photographic evidence that the boxes have been closed in compliance with the above rule.

2. **Labeling/marking - standards for small quantity handlers of universal waste rule, 3745-273-14(E)**: A small quantity handler of universal waste must label or mark the universal waste to identify the type of universal waste as specified in this rule. Each lamp or a container or package in which such lamps are contained must be labeled or marked clearly with one of the following phrases: "Universal Waste-Lamp(s)," or "Waste Lamp(s)," or "Used Lamp(s)."

During the inspection, the boxes that contained the used lamps were not labeled as required by the above rule. To demonstrate compliance with this rule, Eastern Gateway Community College must submit photographic evidence that the boxes have been labeled in compliance with the above rule.

3. **Accumulation time limits- standards for small quantity handlers of universal waste, rule 3745-273-15(C)**: A small quantity handler of universal waste who accumulates universal waste shall be able to demonstrate the length of time that the universal waste has been accumulated from the date it becomes a waste or is received. The handler may make this demonstration by: (1) Placing the universal waste in a container and marking or labeling the container with the earliest date that any universal waste in the container became a waste or was received; (2) Marking or labeling each individual item of universal waste (e.g., each battery or thermostat) with the date it became a waste or was received; (3) Maintaining an inventory system on-site that identifies the date each universal waste became a waste or was received; (4) Maintaining an inventory system on-site that identifies the earliest date that any universal waste in a group of universal waste items or a group of containers of universal waste became a waste or was received; (5) Placing the universal waste in a specific accumulation area and identifying the earliest date that any universal waste in the area became a waste or was received; or (6) Any other method which clearly demonstrates the length of time that the universal waste has been accumulated from the date it becomes a waste or is received.

During the inspection, Eastern Gateway Community College could not demonstrate how long the used lamps had been stored as required by the above rule. To demonstrate compliance with this rule, Eastern Gateway Community College must state in writing how the storage time will be documented in compliance with the above rule.

I have attached copies of the completed checklists and the Universal Waste fact sheets for your information. If you have any questions regarding this letter, please call me at (740) 380-5256.

Sincerely,

Melody Stewart

Division of Hazardous Waste Management
