Dear Mr. De La Cruz:

Thank you for your January 12, 2012 response to Ohio EPA's December 30, 2011 Notice of Violation Letter (NOV). You submitted documentation including:

- One photograph of the satellite accumulation container in the wet laboratory's lab hood labeled with words describing the contents.
- One completed emergency equipment inspection log sheet demonstrating that the emergency communication equipment is being inspected.
- A Certificate of Completion for Jason Starcher for Universal Waste training.
- Four missing LDR forms, as listed in the December 30, 2011 NOV.
- A statement by the facility indicating Nexeo has submitted the application to update their permit to the required hazardous waste transporter permit; however, PUCO has not issued it in time for the facility's response. Nexeo has stated that it will submit a copy of the permit as soon as it is received from PUCO.

My review of this documentation reveals that Nexeo has abated all the violations discovered during Ohio EPA's December 20, 2011 inspection, and cited in the December 30, 2011 NOV. Nexeo is hereby returned to compliance.

Should you have any questions, you may contact me at (330) 963-1181.

Sincerely,

Suzanne Prusnek
