May 19, 2009

CERTIFIED MAIL

Thomas Thieman  
Thieman Stamping Company  
05140 Dicke Rd, Po Box 45  
New Bremen, OH 45869-0045

Auglaize County  
Thieman Stamping Company  
Non-Transient Non-Community PWS  
PWS ID: OH0632912  
Facility ID: 652934

**Subject: Violation of Maximum Contaminant Level for ARSENIC**

Thieman Stamping Company is in violation for exceeding the maximum contaminant level (MCL) standard of 0.010 MG/L as established in the Ohio Administrative Code (OAC) section 3745-81-11 for ARSENIC. Compliance with the MCL is based on a running annual average. The annual average for ARSENIC during the First Quarter of 2009 time period is 0.018 MG/L.

**To address the MCL violation,** Thieman Stamping Company is required to take the following actions:

1. Notify your customers within 30 days using the enclosed instructions and public notice.
2. Complete and send a verification form with a copy of the public notice to the above mailing address within ten days after issuance.
3. Perform quarterly monitoring for ARSENIC during each calendar quarter (January 1 – March 31; April 1 – June 30; July 1 – September 30; October 1 to December 31).
4. Consult with your Ohio EPA district representative to discuss your options for coming into compliance and establishing a compliance schedule or comply with any existing enforcement action that has been issued to you.

Your prompt attention to this matter is greatly appreciated. Continued noncompliance may lead to enforcement actions. If you have any questions or wish to change the public notice, please call me at (614) 644-2752.

Sincerely,

Kathleen Pinto

# DRINKING WATER NOTICE

## Thieman Stamping Company Has Levels of ARSENIC Above Drinking Water Standards

Our water system recently violated the maximum contaminant level (MCL) for ARSENIC. The average level of ARSENIC over the last four quarters was 0.0180 MG/L. The standard for ARSENIC is 0.010 MG/L.

### What should I do?

- **You do not need to use an alternative (e.g., bottled) water supply.** However, if you have specific health concerns, consult your doctor.

### What does this mean?

The levels detected do not pose an immediate risk to your health. However, some people who drink water containing ARSENIC in excess of the MCL over many years could experience skin damage or problems with their circulatory system, and may have an increased risk of getting cancer.

### What is being done?

We are investigating and taking the necessary steps to correct the problem as soon as possible.
