**Re: INVESTIGATION OF ILLEGAL OPEN BURNING**

Dear Mr. Grant,

The Canton City Health Department, Air Pollution Control Division (APCD) represents the Ohio EPA in air quality matters within Stark County. As such, APCD employees are charged with the responsibility to investigate and enforce Ohio EPA (OEPA) air pollution regulations.

On Wednesday, November 12, 2009, I was at your residence and observed the residue from open burning. There was a burn barrel with evidence of burning for waste disposal and there was a fire-ring, also with evidence of burning for waste disposal. The Dalton Volunteer Fire Department was also on the site.

Be advised that your fires were in violation of Ohio EPA regulations. Specifically, Ohio Administrative Code 3745-19-04 (B)(3)(c) because the fires were less than one thousand feet from the neighboring houses.

Please ensure that there are no repeat occurrences.

Sincerely,

Gregory A. Clark, CHMM, CAHES  
Air Pollution Control Engineer

Enclosure: OAC Rule 3745-19-04

COMMENTS:

There were two fires here: one in a burn barrel and one in a fire ring. Both contained evidence of burning for waste disposal. The residents were burning diapers in the burn barrel. Assistant Chief Nussbaum stated that the address was 15113 Stanwood, but a check of the auditor web site indicated to this investigator that the address was 15115, based on the auditor's map. An informational letter was sent to the address.
