SUBJECT: CCR VIOLATIONS (Type 72)

Ohio EPA received the 2008 Consumer Confidence Report (CCR) for Village of Baltimore's public water system. The CCR was reviewed for the required content. Based on our review, the Village of Baltimore public water system is in violation of the Ohio Administrative Code (OAC) Rules 3745-96-01 through 04 for failure to comply with the CCR requirements. The following violations were noted:

1. Required information was to be provided to your satellite water system by April 1st annually. The CCR Certification Form indicates the report was delivered to your satellite water system on 6/18/09.
2. Some or all of the required source water information was missing. In particular, the susceptibility language required in OAC 3745-96-02 (B)(2) was not included.

Be sure to correct the violations as appropriate in your next CCR. The next report for calendar year 2009 must be sent to your customers by no later than July 1, 2010. A copy of the CCR along with a Certification Form must be submitted to the Central District Office at the above address.

The CCR template and template guide are accessible on our website: www.epa.state.oh.us/ddagw.

If you have any questions, please contact me at (614) 728-3874.

Sincerely,

Raymond Shesky
