Dear Mr. Craig:

Thank you for your December 29, 2006 response to Ohio EPA's November 28, 2006 Notice of Violation letter. You submitted documentation including the review of RIS's inspections forms, testing frequencies for WFCO test and Direct Feed/Low BTU Tank Farm III Auto Safety Control System Test inspection requirements.

My review of this documentation reveals that RIS has adequately demonstrated abatement of all the listed violations discovered during our October 31 through November 2, 2006 inspection.

1. *OAC 3745-270-50(A)(2) Prohibitions on Storage of Restricted Waste, and Section C-3c(1) of the application which states "All incoming containers are marked and labeled upon arrival at the facility."*
2. OAC Rule 3745-54-15 General Inspection Requirements.
3. OAC Rule 3745-54-15 General Inspection Requirements.
4. OAC Rule 3745-54-34 Access to Communications or Alarms.
5. Permit Condition 1(A).4©), Weekly Testing.

If you should have any questions, please feel free to call me at (330) 963-1246.

Sincerely,

John Paquelet
