Hazardous Waste
Return to Compliance

October 19, 2011

Mr. Rick Sawmiller
Custom Transmission, Inc.
222 East Spring Street
St. Marys, Ohio 45885

Dear Mr. Sawmiller:

Thank you for your October 3, 2011, response to Ohio EPA's September 7, 2011, Notice of Violation/Partial Return to Compliance (NOV/PRTC) letter. Custom Transmission, Inc. (CTI) submitted information for fluorescent bulbs and used oil photographs. My review of the documentation submitted reveals that CTI has adequately demonstrated abatement of the violations cited in the September 7, 2011, NOV/PRTC.

The following is a summary of the violations cited in the September 7, 2011, NOV/PRTC as a result of my August 17, 2011, inspection and your compliance with respect to each:

1. OAC Rule 3745-52-11, Waste Evaluation:

CTI failed to have waste evaluation documentation or an established recycling plan in place for the fluorescent bulbs generated at the facility.

On October 3, 2011, CTI submitted information regarding the future management of the spent fluorescent bulbs. CTI will manage the spent fluorescent bulbs as universal waste and will send them to Mesco Electrical Supply (Mesco). Mesco takes the universal waste lamps to U.S.A. Lamp & Ballast Recycling in Cincinnati to be recycled.

With this information, this violation has been abated.

2. OAC Rule 3745-279-22(C)(1), Labeling:

Containers, aboveground tanks, and fill pipes used for underground storage tanks shall be labeled or marked clearly with the words "used oil."

On October 3, 2011, CTI submitted photographic documentation for the two portable carboys, one 450-gallon storage tank, and one 900-gallon storage tank that are all now properly labeled "Used Oil".

With this information, this violation has been abated.

Mr. Rick Sawmiller
