Mr. John Nicolozakes
67705 Friends Church Rd
St. Clairsville, OH 43950-9720

Dear Mr. Nicolozakes:

On June 3, 2011, Ohio EPA received a letter addressing some of the violations mentioned in the letter dated May 12, 2011. The following issues still need to be addressed.

- Receipts indicating where the scrap tires and excess trash were taken for disposal.

“Ohio law requires that anyone removing scrap tires for disposal must take the tires to either a licensed or registered scrap tire collection, recovery or disposal facility. Anyone transporting more than ten (10) scrap tires must be registered with Ohio EPA as a Scrap Tire Transporter. The other solid waste (furniture, trash bags, etc.) must also be removed from the above-mentioned property and disposed of at either a licensed solid waste disposal facility or taken to a legitimate recycling facility. Copies of receipts for disposal or recycling should be submitted to this office for proof of disposal.”

- A hazardous waste determination still needs to be conducted on the 20 plus drums throughout the facility; the contents of which had not been properly evaluated to determine if they contain hazardous wastes. You must evaluate (through process knowledge or testing) this waste to determine if it is a listed or characteristic hazardous waste, and send the documentation to this office.
- Please provide pictures of the facility after the cleanup is complete. This will allow us to close out the complaint in a timely fashion.

Please respond to this correspondence within 30 days of receipt. Your response should include details of progress made, actions taken to properly dispose or recycle the current solid waste on your property, and copies of waste manifests for all hazardous wastes shipped off-site.
