Re: Lucas County
Hanson Aggregates/ Waterville Quarry
NPDES Permit

November 15, 2011

Mr. James R. Smith, Environmental Manager
Hanson Aggregates
8130 Brint Road
Sylvania, Ohio 43560

Dear Mr. Smith:

On November 3, 2011, I met with Mr. Deric Harrington, Plant Manager, of the Hanson Waterville Quarry, located on River Road, Village of Waterville, to conduct an inspection of the wastewater discharges.

At the time of the inspection, the discharge from outfall 002 was flowing with clear water. The water was pumped from the quarry's low sump.

Mr. Harrington indicated that the source of water for outfall 001 was not active and the outfall has not discharged for a long time.

The processing of the renewal permit will proceed soon. If you have any questions, please contact me at naajy.abdullah@epa.state.oh.us or (419) 373-3017.

Sincerely,

Naajy S. Abdullah, P.E.
Division of Surface Water
