Subject: Failure to Sample Drinking Water as Required for Lead and Copper

Your public water system failed to collect lead and copper sample as follows:

Monitoring Period:	June 1 - September 30, 2008
Required Sampling:	5 samples for each lead and copper
Sample Results Submitted:	None

Actions required as a result of the above

Collect and analyze the required number of lead and copper tap samples during June 1 - September 30, 2009. Based upon the reported population, you are required to collect a minimum of 5 lead and copper samples. Report results on the enclosed forms 5105, 5106, and 5107 by October 10, 2009.

Sampling in 2009 is needed to return your system to compliance as a result of a failure to collect lead and copper samples in a prior year. **Note that this will not be listed on your 2009 monitoring schedule.** If you have any questions, please contact me at (614) 728-5033.

Sincerely,

Susan Hampton
