**Re: Graham Packaging Inspection**

Dear Mr. Grosser:

Thank you for accompanying Mari Piekutowski and myself during Ohio EPA's inspection of Graham Packaging's facility in Mason, Ohio. Ohio EPA inspected Graham Packaging to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734 of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). This inspection letter is separate from the voluntary audit disclosure evaluation. During the inspection, it was determined that Graham Packaging is a Conditionally Exempt Small Quantity Generator (CESQG) of hazardous waste. The following violations of Ohio's hazardous waste laws were found:

1. **OAC Rule 3745-273-14(E) - Labeling/markings- standards for small quantity handlers of universal waste:** Each lamp or a container or package in which such lamps are contained must be labeled or marked clearly with one of the following phrases: "Universal Waste- Lamps(s)", or "Waste Lamps(s)", or "Used Lamps(s)."

Graham failed to comply with this regulation in that spent fluorescent lamps were stored in a box marked "Used Light Bulbs" and not one of the phrases listed in the rule. **At the time of the inspection Graham Packaging marked the containers "Used Lamps" returning them to compliance with this rule.**

2. **OAC Rule 3745-279-22(C)(1) - Used oil storage requirements for generators:** Containers and aboveground tanks used to store used oil at generator facilities must be labeled or marked clearly with the words "Used Oil".

Graham failed to comply with this regulation in that a tote used to collect used oil was not labeled or marked with the words "Used Oil". **At the time of the inspection Graham Packaging marked the tote with the words "Used Oil" returning them to compliance with this rule.**
