Ladies and Gentlemen,

On March 25, 2009, I conducted inspections at the above wastewater treatment package plants maintained and operated by the Darke County Commissioners. These inspections were conducted to determine compliance with the respective NPDES discharge permits.

I have also completed a review of the self reporting monitoring reports for these facilities. Violations of the effluent limitations were noted during this review. A detailed inspection report is attached.

Provide a response to the "Items Requiring a Response" section of the report by **April 24, 2009**. Your response should include dates, either actual or proposed, for completion of actions. If you have any questions, I can be reached at (937) 285-6109.

Sincerely,

Joe Miller:
