Bob Roddy  
Warehouse Operations Manager  
Maui Toys  
1275 Crescent Street  
Youngstown, OH 44502

Dear Mr. Roddy:

On January 30, 2012, Robert Almquist and I, as representatives of the Ohio EPA's Division of Materials and Waste Management, conducted a compliance inspection of the Maui Toys, Inc. (Maui Toys) facility located at 1275 Crescent Street, Youngstown, for compliance with Ohio's hazardous waste and used oil regulations. You represented Maui Toys during the inspection.

The Maui Toys facility was selected for an inspection because our records indicate that ID Number OHR 000 110 270 was assigned to MidStates Express at this location. You reported that several business had been at this location and that if MidStates Express had been at this location, it would have been many years ago.

Because an ID Number is assigned to a physical location, it is our practice to inspect the current occupant if the entity that requested the ID Number is no longer present.

The Maui Toys facility is a warehousing and distribution facility. Toys are received, warehoused, and reshipped. The facility also receives and assembles display racks for toys. Some of the toys are re-packed onto these display racks to create a rack that a retailer can utilize "out-of-the box".

No hazardous waste was observed. Used fluorescent lamps are generated. You reported that these lamps are managed through Waste Management. Some used batteries are also generated and you reported that these are managed through a community recycling program.

Based on observations made during the facility walk-through and inspection, Ohio EPA has determined that Maui Toys, Inc. has violated the following state used oil and universal waste regulations:

1. **OAC 3745-273-14(E) Small Quantity Handler Must Label the Unit Holding Universal Waste Lamps**

The facility generates used lamps which it manages as universal waste and is classified as a small quantity handler of universal waste. One box for used eight foot fluorescent lamps was present in the electrical room. OAC 3745-273-14(E) requires that this container be labeled with the words "Universal Waste - Lamp(s)" or "Waste Lamp(s)" or "Used Lamp(s)". The facility was not in compliance with this rule as no labels or marking with any of these words were observed on the box.

The box was marked as required by the rule during the inspection. This action abated this violation. In the future, all universal waste lamps should be managed in accordance with the universal waste rules.

Enclosed you will find a copy of the checklist completed during the January 30, 2012 inspection.

Also enclosed are guidance documents for your information on management of used fluorescent lamps and management of universal waste.
